Title	URL	Authors	Host item title
Determination of nitrate migration and distribution through eutric cambisols in an area without anthropogenic sources of nitrate (Velika Gorica well field, Croatia)		Buškulčić, Patricia; Parlov, Jelena; Kovač, Zoran; Brenko, Tomislav; Pejić, Marija	
Estimation of nitrate background value in groundwater under the long-term human impact		Buškulčić, Patricia; Parlov, Jelena; Kovač, Zoran; Nakić, Zoran	
Implementation of a Ti(III) reduction method for the determination of nitrogen ($\delta^{15}\text{N}$) and oxygen ($\delta^{18}\text{O}$) isotopic composition of nitrate		Buškulčić, Patricia; Bačani, Laura; Balaž, Borna-Ivan; Kovač, Zoran; Parlov, Jelena	
Utilizing stable water isotopes ($\delta^2\text{H}$ and $\delta^{18}\text{O}$) to study soil-water origin in a sloped vineyard: first results		Kovač, Zoran; Krevh, Vedran; Filipović, Lana; Defterdarović, Jasmina; Buškulić, Patricia; Han, Luka; Filipović, Vilim	
Transboundary unconfined alluvial aquifers (Slovenia - Croatia)		Buškulčić, Patricia; Parlov, Jelena; Kovač, Zoran; Rman, Nina	
Hidrogeokemijske značajke podzemne vode u panonskom dijelu Republike Hrvatske		Buškulčić, Patricia
