XITH INTERNATIONAL ProGEO SYMPOSIUM

9-11th October 2023

Charnwood Forest, UK

SCHEDULE

VERSION 1.0

All times are given in British Summer Time (UTC+1)

MONDAY 9th OCTOBER

09:00	Opening Ceremony and Presentations	
09:45	Session 1	Chair: Sven Lundqvist
09:45	How to identify and evaluate threats to geodiversity sites?	Lucie Kubalíková
10:00	Geodiversity Net Gain: The Next Step in Geoconservation?	Jane C Puzey
10:15	Turbulent history of a basalt quarry and volcanic geosite – a conservation battle finally won?	Piotr Migoń
10:30	Session 2: Poster Presentations and Refreshments	Chair: Jack Matthews
10:30	Geological heritage and national parks in Brazil: from identification to management	Andreá Trevisol
10:30	Geoheritage of the Peneda-Gerês National Park, Portugal: its inventory as the first stage of a geoconservation strategy	Andreia F F Afonso
10:30	Geopedregal, a project that shows the inherent geo-bio diversity of a young lava flow.	M. Fernanda Martinez-Báez Téllez
10:30	Geotourism and climate change: challenges and research opportunities for sustainable management and adaptation	John E. Gordon
10:30	An indicative framework and key steps in assessing and adapting to the impacts of climate change on geoheritage sites	Rachel M L Wignall
10:30	The Jurassic Coast Collection - A novel approach to managing palaeontological heritage on the Jurassic Coast World Heritage Site.	Christopher Reedman
10:30	Proposal for the protection and conservation of the Terra Rossa soil profile from Istria in the category of geological monument of nature	Marta Mileusnić
10:30	Monitoring palaeontological reserves and geosites in Romanian Geoparks. Preliminary results	Eliza Anton
10:30	Geo feature monitoring in England - Recent Progress	Daniel Burgess
10:30	Geoheritage and geoconservation in SW Europe: achievements and challenges in France, Italy, Portugal and Spain	Paulo Pereira
10:30	GEOfood as a tool for valorisation and dissemination of geological heritage within UNESCO Global Geoparks	Dr Sara Gentilini
10:30	Kras Carso II – strategic European project between Slovenia and Italy	Martina Stupar
10:30	Salpausselkä Geopark - Finland's latest UNESCO Global Geopark	Tapio Kananoja
11:30	Session 3	Chair: Irene Bollati
11:30	Beneath our feet – incorporating past mine workings into geoconservation strategy	Melinda T McHenry
11:45	Geoheritage degradation by forest fires: a study in Estrela UNESCO Global Geopark (Portugal)	Jéssica B Gonçalves
12:00	Whose experience for what purpose? Developing a geoheritage evaluation method with multi-stakeholder input for Fujairah, UAE and Southeast Arabia	Kenta Sayama
12:15	Geoheritage monitoring and conservation: Does 'greenery' degrade or protect the heritage structures at the Osun-Osogbo Sacred Grove UNESCO World Heritage Site from climate change effects?	Jokotola Omidiji

12:30	Geoconservation at the International Union for Conservation of Nature (IUCN)	Manu Monge-Ganuzas
12:45	Scientific publishing and sustainable development: The role of Geoheritage	Kevin N. Page,
13:00	Lunch	
14:00	Session 4	Chair: Jose Brilha
14:00	Threats and challenges for conservation of fossil sites included in the Natura 2000 network: the case of Agighiol geological reserve, Romania	Antoneta Seghedi
14:15	Auroralumina goes to London - making an exhibition quality cast from a rock face in Charnwood Forest	Simon J Harris
14:30	Determining the relative “value” and sustainability of the UK’s in-situ dinosaur track sites	Kirsty M Edgar
14:45	Condition, use and future of palaeontological heritage at Spyway and Horn Park quarries, Dorset, UK	Richard J. Butler
15:00	Protecting Newfoundland’s palaeontological heritage: mitigating anthropogenic and environmental damage to the Ediacaran fossils of Upper Island Cove	Christopher McKean
15:15	Need for protection of the Jurassic inactive quarry of Wrzosowa near Częstochowa Town (Silesian-Cracow Upland, Southern Poland) — why, for whom and how?	Ewa Głowniak
15:30	The Scottish Fossil Code	Colin CJ MacFadyen
15:45	Break and Refreshments & Time for Fringe Meetings	
17:30	Keynote Lecture: England's National Nature Reserves: An Exemplar in Telling a Country's Geological History	Dr Jonathan Larwood
18:30	Drinks Reception	
19:30	Close of Day 1	

TUESDAY 10th OCTOBER

09:00	Session 5	Chair: Piotr Migon
09:00	IUGS Geological Heritage Sites: a great opportunity for the international recognition of reference sites for the geological sciences	Benjamin van Wyk de Vries
09:15	Why geoconservation needs a new international designation?	José B R Brilha
09:30	The role of the European Federation of Geologists Panel of Experts on Geological Heritage regarding geoconservation strategies and practices	Mónica G.S. Sousa
09:45	State of the art in geoconservation and geosite inventory in ProGEO Southeast European Regional Group countries (WG1)	Georgia Fermeli
10:00	The Subcommission on Geo-Collection of the IUGS International Commission on Geoheritage – current status and future tasks	Marcela Gomez-Perez
10:15	Geoconservation in England – a very brief overview	Colin D Prosser
10:30	Session 6: Poster Presentations and Refreshments	Chair: Helena Tukiainen
10:30	The diversity of Spanish regional legislation in relation to geoconservation. Four examples: Aragón, Basque Country, Castile and León, and Catalonia.	Manu Monge-Ganuzas
10:30	Towards the creation of the ProGEO Latin America and Caribbean regional group: preliminary actions and perspectives	Maria G M Garcia
10:30	On concepts and definitions in geological heritage studies and practice – or the ‘6G(+)’s and their many interpretations and reinterpretations	Kevin N. Page
10:30	What the International Geodiversity Day’s logotype tells us about geodiversity?	Silas Samuel dos S Costa
10:30	Geodiversity and geological heritage of Dnipropetrovsk region	Volodymyr Manyuk
10:30	Sanjay Gandhi National Park, Mumbai, India: A mélange of Geoheritage, Cultural Heritage and Biodiversity	Sunayana Sarkar
10:30	Geoheritage of the protected area of Bentbaša in Sarajevo Canton (Bosnia and Herzegovina)	Samila Hrvanović
10:30	Gypsum, galena and bobkingite: The mineralogical heritage of Leicestershire in three mineral species	Frank Ince
10:30	Geoheritage of the Neogene Gutâi Volcanic Zone (Eastern Carpathians) as a key factor in the statement of a Geopark in the NW of Romania	Marinel Kovacs
10:30	Geopark small communities, the starting base in the sustainable development of a UNESCO-recognized territory	Dan H Popa
10:30	Inventory and Quantification of the Geoheritage from the Famenne-Ardenne UNESCO Global Geopark	Áureo L Paiva Neto
10:30	Natural protected areas of geological interest from the Maramureş County (NW part of Transylvania, Romania)	Ioan Denuţ
10:30	The geodiversity of the Italian badland geosites: a review	Irene M. Bollati

11:30	Session 7	Chair: Cristina Toma
11:30	BioGeodiversity: a study of the Xitle volcano, Mexico.	Maria. Fernanda Martínez Báez Téllez
11:45	Why and how are geodiversity and biodiversity connected? Framing the theory with practical examples from northern environments	Helena Tukiainen
12:00	The Balzi Rossi Geocultural Site (Ligurian Coast, Italy) - An Opportunity To Enhance The Connection Between Geosciences And Cultural Heritage	Irene Maria Bollati
12:15	Shillong Plateau, Meghalaya, India: A tectonically carved Geo-diverse Geo-tourism enigma	Sunayana Sarkar
12:30	Herefordshire and Worcestershire Earth Heritage Trust: Geoconservation for 26 years and counting	Elizabeth A Andrews
12:45	Antarctic Ornithogenic Soils: valorization of a resource sensitive to past and ongoing climate change	Anna Masseroli
13:00	Lunch	
14:00	Depart for Intra-Conference Field Trip	
17:30	Return to Loughborough. Close of Day 2	

WEDNESDAY 11th OCTOBER

09:00	Session 8	Chair: Ewa Glowinski
09:00	A Brazilian timeline for Geoconservation: turning points in the development of a new scientific discipline	Maria G M Garcia
09:15	Itineraries and networks of territorial actors for the participatory management of geodiversity between urban and rural areas. The case of the living labs approach at the Metropolitan Area of the Aburra Valley, Colombia.	Catalina Gonzalez Tejada
09:30	From geoconservation to the peace construction along the Colombian Cities and Territories	María I. Marín-Cerón
09:45	Quantitative and qualitative Geoheritage Assessments of Karakoram Highway (KKH) and part of Central Karakoram National Park (CKNP), North Pakistan; Implications for the Geosites Recognition	Muhammad Yaseen
10:00	Geoheritage and Geoparks in Morocco. General presentation and current findings	Khallaf El Ghalbi
10:15	Interpretation of Geological Heritage in UNESCO Global Geoparks: Evaluation of Geological Heritage Interpretation within Information Boards in European Geoparks	Ľubomír Štrba
10:30	Session 9: Poster Presentations and Refreshments	Chair: Manu Monge-Ganuzas
10:30	The megaclasts and granitic flagstones of the Lara Locality (Far North Cameroon): An Asset for the Development of Geotourism	Hyacinthe Nouhou Dama Zouyane
10:30	Buzău Land UNESCO Global Geopark in Romania: geotourism strategy	Andrei Briceag
10:30	Georoutes as a Tool Geotourism Valorisation of Beni Mellal Atlas Mountain Geoheritage (Beni Mellal Province, Morocco)	Hicham Bouzekraoui
10:30	Promoting geotourism and local development of the Witches' Cave of Zugarramurdi, Navarre (northern Spain)	Jon-Mari Iturralde
10:30	The Anti-Atlas range is the geoheritage that should be geoconserved through geotourism for the local development. This could be done if only the local actors; including scientists, development actors make the Anti-Atlas range as a laboratory for geoconservation, and geoethics to innovate, and create Tourism chain value orientated to the whole landscape; because it has got a deep paleontological heritage	Lahoucine. LAGHZAL
10:30	Once upon the time there was...GeoStorytelling as a learning tool accessible to all	Adina M. Popa
10:30	How to use social media to promote geological heritage and conservation	Emma M Cieslak-Jones
10:30	Geological heritage education in Greece: Reflections on the last 25 years initiatives	Anastasia Koutsouveli
10:30	An urban geo-cultural trail in Athens: From Kerameikos archaeological site to Areios Pagos hill, under the sacred rock of the Acropolis	Georgia Fermeli

10:30	Using interpretation to discourage law-breakers, and to enlist a citizen army to police this. A case study of dinosaur trackways in the UK. But does it work?	John D Macadam
10:30	Improving visitors' Geoheritage experience: some practical pointers for managers	Roger Crofts
10:30	'ReCycling' the Geologists' Association's Edwardian Charnwood Excursions	Thomas A. Hose
10:30	The Unique Geoheritage of the Quaternary Deposits and Landforms of Peshawar Basin, Khyber Pakhtunkhwa, Pakistan, and its Geoconservation; Insights into their paleogeographical, educational and social importance	Muhammad Yaseen
11:30	Session 10	Chair: Lubomir Strba
11:30	Geoscience in Pixels: an immersive art piece exploring barriers to outdoor spaces for those with invisible illnesses and disabilities	Manlin Zhang; Rosa Francesca
11:45	Immersive Earth: Enhancing Geoscience Education for Students and Outdoor Enthusiasts through Virtual Reality	Mark Williams
12:00	How to establish a 3D model platform for geosites?	Edina Hajdú
12:15	Examples of applications of the Structure-from-motion in geoheritage assessment, monitoring and communication	Gianluca Tronti
12:30	Advanced digital technologies for the promotion of geodiversity and geoheritage	Damien Bonté
12:45	Using GIS-MCA to assess future erosion risk for geosites to aid sustainable geotourism – a case study from Siljan Geopark in Sweden	Eva A U Sahlin
13:00	Lunch	
14:00	Session 11	Chair: Lucie Kubalikova
14:00	The Seridó UNESCO Global Geopark's geoeducational resources	Silas Samuel dos Santos Costa
14:15	Redefining public space through geoheritage interpretation. Case studies from a post-communist society	Cristina Toma
14:30	Project of a geoeducational path in the historic iron and uranium mine in Rudki, Holy Cross Mountains (Poland)	Witold Wesołowski
14:45	Geomorphological heritage in the Territorial Unit of Alvaizere: fifteen years after inventory, assessment and promotion, a new assessment was made to understand what changed	João P Forte
15:00	Harnessing Public Opinion for Geosite Evaluation: The Monitoring Geosite Assessment Model (Mo-GAM)	Márton Pál
15:15	Key steps for geosite condition monitoring	Rachel M L Wignall
15:30	Break and Refreshments	
16:00	ProGEO General Assembly	
17:30	Closing Ceremony	
18:00	Close of Day 3	
19:00	Symposium Dinner (Booking Required)
